

21R - LOGISTICS READINESS OFFICER

PREPARATION IS EVERYTHING

THE USAF LOGISTICS READINESS MISSION

Readiness starts long before we begin any mission.

It's the job of Logistics Readiness Officers to prepare our Airmen for anything by ensuring that every person and piece of equipment is ready to go. From aircraft parts, fuel, weapons, and body armor, to contingency planning, to air and ground transportation, these experts have a wide range of operations under their watch. Logisticians ensure everything gets where it needs to go, exactly when it needs to get there.

"If our aircraft, missiles, and weapons are the teeth of our military might, then logistics is the muscle, tendons, and sinews that make the teeth bite down and hold on--logistics is the jawbone! Hear that? The JAWBONE." - Lt Gen (ret.) Leo Marquez

QUALIFICATIONS SUMMARY:

* Completed Bachelor's degree; recommended focuses include logistics management, economics, management, business administration, computer science, information management systems, finance, accounting, petroleum engineering, chemical engineering or industrial management

* Completion of Officer Training School (OTS), Air Force Academy (AFA) or Air Force Reserve Officer Training Corps (AFROTC)

* Willingness to lead Airmen in diverse operations worldwide

OUR TEAM

As a USAF Logistics Readiness Officer, **you will lead some of the largest and most diverse teams in the Air Force at locations around the globe.** With the best in the service at your side, there's no limit to what you can achieve.

Supply Management

Supply

Vehicle Management

Fuels

Life Cycle Logistics

Deployment, Distribution and Transportation

Ground Transportation

Air Transportation

Logistics Plans

WHERE WE WORK

You will find Logistic Readiness Officers at every major US Air Force installation around the world, as well as in numerous Joint positions stationed with our sister services. With deployed opportunities in the Middle East, Africa, Central America, and beyond, your opportunities are truly global.

Like any branch of the military, the U.S. Air Force goes where and when it is most needed, but getting to a theater of operations doesn't happen on its own.

Coordinating the movements of Air Force units, equipment, and personnel demands the skills of a trained readiness or logistics readiness officer.

USAF LOGISTICS READINESS CORE PRINCIPLES

These are just a few of the principles that Air Force logisticians adhere to:

1 Our Why: Provide premier combat service support to enable, generate, and sustain our peacetime and wartime mission

2 Logistics is essential to the Air Force's ability to "Fly, Fight, and Win" in all domains

3 Logistics talent is deliberately managed to ensure we develop the officers and logisticians the Air Force needs to tackle complex challenges in an ever changing global environment

4 Total Force Integration at home and overseas helps us better develop our logisticians and provide continuous support to critical missions

WHAT WE DO | SAMPLE RESPONSIBILITIES & LEADERSHIP:

- * Direct distribution management operations, including transportation functions and shipping of supplies
- * Determine base readiness requirements and operational support capacity
- * Compute and analyze current and projected materiel requirements to support flying and other operations
- * Direct contingency planning, fuels management, aerial port, and vehicle management operations
- * Formulate logistics management and fiscal policy to sustain critical Air Force weapon systems
- * Perform site surveys on worldwide airfields to validate for agile combat support
- * Support rapid global mobility through the planning, preparation, and movement of personnel and equipment
- * Work with our Allied Partners and sister services to ensure logistics support for operations anywhere at any time
